PROFILE

As a Web Developer with 2+ years of experience, I specialize in creating user-friendly interfaces, optimizing web functionality, and testing and debugging web applications. I am proficient in a range of programming languages and technologies, including HTML, CSS, JavaScript, PHP, and React, allowing me to develop a variety of responsive and visually appealing web applications.

I have a passion for staying up-to-date with the latest trends and techniques in web development. My eye for detail, strong problem-solving skills, and ability to adapt to clients' specific needs enable me to consistently deliver high-quality results on-time and on-budget. I am dedicated to creating websites that exceed my clients' expectations, and I am always looking for new challenges to further expand my skills and expertise.

WORK EXPERIENCE

Software Trainee Engineer/Data Analyst /Survey Programmer

Acuity Knowledge Partner Pvt Ltd.   2020-2022
Gurugram, India

- Proficient in Python and XML languages and Decipher tool for survey creation and deployment

- Detail-oriented with a passion for creating engaging and informative surveys
- Skilled in interpreting survey data and analyzing results to derive meaningful insights for informed decision-making
- Strong understanding of the survey design process, including the importance of clear, concise, and effective questions
- Committed to delivering high-quality results that meet or exceed client expectations.

Web Developer

Sharda Tech   2022-Present
Greater Noida, Uttar Pradesh, India

I have experience creating portals for website management and development using HTML, CSS, JavaScript, PHP, and React. I have contributed to various projects, including

Project 1 - https://shardahospital.org/

- Designed and developed homepage, about us, and contact us pages for a website
- Managed front-end development and made website responsive for phones and tablets
- Used HTML, SQL, JavaScript, and CSS to build pages and implement SQL database connectivity.
- Collaborated with a team of developers, designers, and stakeholders to ensure the timely and successful completion of the project.

Project 2 - https://www.sws.ac.in/

- Created website layout and user interfaces for Sharda School Welfare webpage using HTML and CSS
- Conducted research and analysis of website content to ensure relevant and accurate information
- Designed homepage, including visual design elements and content structure

Project 3 - ·https://www.sharda.ac.in/redcysec/

- Developed and designed the cyber security webpage for Sharda University using HTML, JavaScript, and CSS
- Built the webpage to be dynamic and responsive, adapting to various screen sizes and devices
- Implemented interactive elements using JavaScript to enhance user experience
- Conducted thorough testing and debugging to ensure the webpage's functionality and user-friendliness
- Collaborated with a team of developers, designers, and stakeholders to ensure the timely and successful completion of the project.

Project 4 - Sharda Alumni Website

- Collaborated with a front-end development team to build the alumni website for Sharda University using React, CSS, HTML, and JavaScript
- Utilized Node.js, MySQL Workbench, and other technologies to build the backend of the website
- Utilized GitHub for version control and collaborative development
- Conducted testing and debugging to ensure the website's performance, security, and user-friendliness
- Worked collaboratively with the team of developers, designers, and stakeholders to ensure the timely and successful completion of the project.
